

Hi Teberah

I just want to say how wonderful Kathelene's really is. In August I started bring my mom to the daycare and it was a blessing for me as well as my mom. I don't have my mom on a regular basis, but we both have talked and now when she is with me she will be going coming back.

My mother loves the people so much and I could truly see a difference in her attitude and health when she started going. It was like prayer answered for me. All she talk about is how she loved Ms. Ernestine and the people there. It is because of their care a compassion for the people is genuine as if it was their own family. I will continue to use Kathelene's anytime I have my mom.

I speak blessing on them and I pray that the will continue for many years to come.
My mom and I just love them so much!!
