

Mom has been a client of Kathlene's Adult Day Activity Center for the past few months. She is affectionately known as, Willie E. and receives great care there. My sister and I had been looking for a special place where we felt comfortable leaving mom throughout the day. Kathlene's has proven to be a very valuable resource for us. We know that Mom is happy, healthy and cared for throughout the day.

She is excited about attending field trips and interacting with the staff and other seniors. The feeling of knowing that your loved one is cared for by an excellent staff during the day, helps to lighten the load of caring for an aging parent at home.
