

When caring for a loved one a caregiver or families feel they only have three options in long-term care:

- Place their loved one in a nursing home
- Assume the Role of a Full-Time Caregiver
- Hire Home Care Aides

Fortunately, *Kathelene's Compassionate Adult Day Program* offers an affordable alternative for elderly or disabled adults 18 years and older.

Adult Day Health Care staff partners with caregivers and physicians in a team approach to provide each patient with a care plan and program that is specific to his or her needs.

Patients receive mental and physical stimulation that helps to improve their well-being, quality of life, and to decrease social isolation while offering respite for caregivers.
